

Product Description

The VDOT-RMS Manual pull station is a high-quality non-toxic die-cast manual pull station.

Low profile design and smooth edges offer an attractive yet functional design.

All components are pre-painted or have plated surfaces to inhibit corrosion.

Electrically, the VDOT-RMS manual pull station is unbeatable with 10amp snap action S.P.S.T. switch.

The VDOT-RMS pull station can be used with or without a break glass rod, the replacement of the glass rod requires no special tools.

All stations are Red, unless otherwise indicated.
