

Product Description

The VDOT-RMS Manual pull station series, is a complete range of high-quality, non-toxic, die-cast manual pull stations, comprising of indoor, outdoor and explosion proof solutions.

The indoor models have a low profile front design with smooth edges offering an attractive yet functional design and when adding a back box allows surface mount installation where applicable.

All components are pre-painted or have plated surfaces to inhibit corrosion.

Electrically, the VDOT-RMS manual pull station is unbeatable with a 10 amp snap action S.P.S.T. switch.

The VDOT-RMS pull station can be used with or without a break glass rod, the replacement of the glass rod requires no special tools.

Single or Dual Action models for fire alarm solutions come in red as standard.

Single Action Flush Mount

S.P.S.T switch with screw Terminals

Dual Action
with
Lift & Pull Cover
